Mission Focus - Designed to transform the pace and efficacy of mission-critical operations, IKE is a command and control platform that enables mission planning for the non-kinetic, all-domain battlefield. IKE delivers unparalleled situational awareness, enabling commanders and decision-makers to navigate the complexities of cyber, space, and electronic warfare with precision.

Unparalleled Situational Awareness

- **Accelerate and Scale Shared Situational Understanding:** Reduce response times with real-time mission status and shared understanding of cyber and non-kinetic activity.
- **Enhance Mission Success:** Streamline operations by equipping leaders with the tools to quickly understand and react to changing circumstances.
- **Gain Comprehensive Combat Power Insights:** Visualize consolidated reporting of combat power to realize its fullest potential and mitigate over and under-utilization of resources.
- **Collate Authoritative Data with Human Expertise:** Collect usable, digestible data from authoritative sources necessary to inform the mission all while putting an end to disparate data.
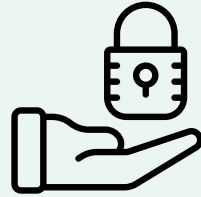

The Power of IKE: How it Works

SOURCE DATA: ENTERPRISE INTEGRATION WITH AI AUGMENTATION AND HUMAN EXPERT ANALYSIS CREATE A RICH, SECURE WAREHOUSE OF FOUNDATIONAL DATA.

CONTEXTUALIZE: ENRICH, CONTEXTUALIZE, AND SYNTHESIZE DATA INTO COMPREHENSIVE VISUALIZATION OF THE OPERATIONAL ENVIRONMENT.

ANALYZE: UNDERSTAND AND ORCHESTRATE OBJECTIVES AND RESOURCES DURING MISSION PLANNING.

MONITOR AND REPORT: AUTOMATED REPORT GENERATION AND CUSTOMER-DEFINED SECURITY CONTROLS STREAMLINE INFORMATION SHARING WHILE PROTECTING DATA AT THE APPROPRIATE LEVEL.
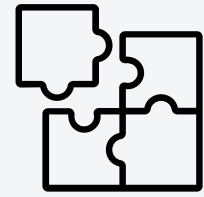

Enhanced Planning and Orchestration

Understand and orchestrate objectives and resources during CONOP development, supported by custom workflows and approval processes.

Security Reporting and Sharing

Automated report generation, notifications, and integrated chat and security controls streamline information sharing while protecting data at appropriate levels.

Seamless System Integration

IKE's advanced interoperability features allow it to easily integrate with your existing enterprise technology and authoritative sources of information.

Who We Serve

- Cyber Operator
- Warfighter
- Mission Planner
- Mission Analyst

How We Serve

- Military Exercises
- Commander's Briefs
- Mission Planning
- Mission Operations
- After Actions and Assessments
