Intern FAQs

Q: When do you offer internships?
A: Most Two Six Technologies internships take place in the summer, but we do offer occasional internships throughout the year. Our Summer Program runs from June to August.

Q: How many hours do I need to work?
A: Interns often work a full 40-hour week during the summer, but hours can vary throughout the year.

Q: Are your internships only available in person?
A: No. While it is team and project dependable, some internships can be completed remotely.

Q: What types of positions do you offer internships for?
A: We offer internships in a variety of areas including research, software development, field operations, Machine Learning, and data science. The Talent Acquisition team partners closely with the business to identify opportunities and the best internship talent.

Q: Do I need a clearance?
A: No, you do not need a clearance for our internships, but you do need to be able/eligible to secure a clearance.

Q: Are you only accepting Interns from partner schools?
A: No, our internship program is open to students entering their Junior or Senior year pursuing a degree in a relevant field from any school.

Q: Do you have Interns outside your Summer Internship Program?
A: Yes. In some cases, Interns extend their time on approved projects.
